Class 5 (top 90%)	450	531	591	653	717	780	842	911	985

Classification Tables: These numbers were calculated using the USAPL database for the years 2013, 2014, and 2015 (through August 6). As an example, the Class 1 threshold for 264.6+ men (i.e., 1660) means that 15% of ALL 264.6+ men (all ages) achieved a total of at least 1660. The numbers are objectivity derived because they simply represent a particular percentile rank.
